PETITION TO MAKE MR. BEAN PART OF THE MARVEL CINEMATIC UNIVERSE

Choose one:

I understand that Rowan Atkinson can and should stand taller than Thor or at the very least Iron Man.

I have already signed a similar petition to demand Sebulba the pod racer from Star Wars Episode 1 be included, and I feel signing this petition would dilute that message.

I am a coward unable to stand for the principles others would die for, and I do not think the man who played Blackadder deserves his due.

Prefer not to answer.

I am writing a play about Sebulba called "The Dug from Malastare" and I cannot stress enough how much better he would gel with Mark Ruffalo.

Sebulba has expressed interest in a reccuring guest role in the new CW show "Watto's World" please contact me, his agent.

Then mail it to us at our offices at 11811 NE 1st St, Bellevue, WA 98005
